

The Segno range proves that classic design can also become the most contemporary when used in the right way.

Whether in a modern or industrial rooftop flat, a classic turn of the century apartment or a villa inspired by an Italian mansion, Segno makes a great flooring choice when it comes to enhancing your style. Revisiting the classic patterned floor with a more modern approach, Segno gives you artistic license to create your own patterned floor layout, combining our exceptional quality and finishes with a modular technology that allows for almost infinite range of unique pattern options. Whether you opt for a timeless herringbone pattern or create your own, Segno can take any space to its full potential.

With this booklet Tarkett gives you some recipes to start your creative journey.

Patterns

The various patterns will be created by mixing the colours and by using different shares of LEFT and RIGHT planks. All recipes are made for a standard rectangular room size of 20 m^2 . Since the material quantity depends on the settings of the installation area we recommend to verify with your installer for the exact amount of material needed. Each recipe has an indication of number of boxes to be ordered, where waste is included. Every box includes $30 \text{ planks} = 2,16 \text{ m}^2$.

LEFT and RIGHT planks

Please note that LEFT and RIGHT planks are in separate boxes with different material codes.

To identify plank orientation, place both planks with wear layer upwards and the short side groove facing you. The LEFT plank is characterized by the long side tongue is to the left and for the RIGHT plank to the right.

For herringbone pattern both LEFT (L) and RIGHT (R) planks are needed. For patterns such as Stack bond, only one type should be used and the installation can be made with either LEFT or RIGHT planks.

For other patterns the ratio between LEFT and RIGHT planks might be uneven, for example 5 to 1.

Keep this in mind when ordering material since switching between LEFT and RIGHT planks might be possible.

Dimensions: 600 x 120 mm

Aspect ratio: 5:1

For installation instructions please visit tarkett.com

WOOD - PRODUCT DATASHEET 2022

DESIGN

The collection comprises of two modular boards (left and right), available in several different colour nuances and treated with Proteco Hardwax Oil. Combining the boards in different ways you will be able to create both traditional and new and exciting patterned floors. Additionally, by mixing the different colours you can add infinite possibilities to your creative expression.

The pictures only present the colour of the floor. For more details regarding grading and variations see the Grading Book or www.tarkett.com.

Tarkett's international range of floors comprises many different products. Some of these may not be for sale in your country. Although every care has been taken to reproduce images that reflect the finished product, the quality of monitor and printer and the nature of wood results in variations in the color and structure of individual planks.

For further and latest information please visit www.tarkett.com
